Overview

I'm a full-stack developer with 9 years of experience in Web Development (which includes 5 years of experience in Modern Front-End Web Development and 4 years of .NET related technologies), with good knowledge of Object-Oriented Analysis and Design, Architecture Design, and Design Patterns. I am an EP holder and working in Singapore.

Experience (9 years total)

Team Leader (REACTJS)

SQREEM Technologies Company/ December. 2021 - current - Singapore

- We have developed an AI solution that solves some of the most difficult internet challenges by delivering cookie-free, precise, Ad-targeting at scale.
- Our technology identifies your most valuable groups of customers and their behaviors, not individuals, respecting privacy, delivering relevancy.
- Our AI matches online behaviors with brands and publishers, and by integrating the Ad-ecosystem, we control delivery across the entire process.

Team Leader (REACTJS)

DOXA Holding Company/ Sep. 2021 - November 2021 - Singapore

- Manage the team members, manager, or organization's ability to lead a group of people in accomplishing a task or common goal. Effective team management involves supporting, communicating with, and uplifting team members so they perform to the best of their abilities and continue to grow as professionals.
- Tech stack: VueJS, ReactJS, React Native

Technical Leader (REACTJS / ANGULAR)

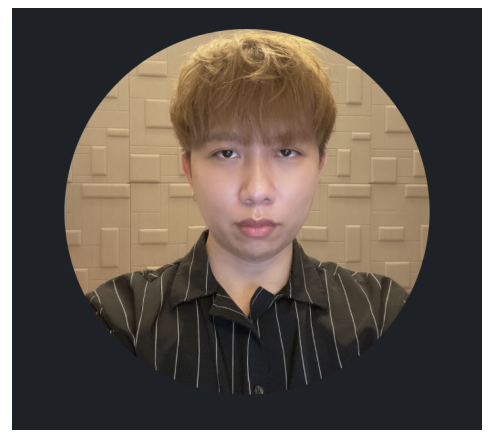

Jebhealth Company/ Mar. 2020 - August 2021 - Singapore

- Develop the website for Remote Systems to enable doctors to meet their patients via video call and screen sharing.
- Backend: NodeJS, AWS, Redis, MongoDB, Auth0, PHP
- Front-end: VueJS, ReactJS, React Native

Technical Leader (REACTJS / ANGULAR)

Defide Company/ Mar. 2017 - Feb 2020

- Developing web pages using HTML5, CSS3, Object Oriented Javascript
- Creating server-side applications using AWS Service, Angular 4 - 6 and React JS, Redux, and Node JS.
- Work with Japanese Customers and Banking Website
- Building Admin website for creating chatBotHub (AI)
- Support members about their task

Team Leader (.NET Developer / Front-end Developer)

Loc Phuong Nam Company/ Nov. 2015 - January. 2017

Decide and distribute work for members and responsible for all code of back-end including APIs, ID, internal APIs, database, etc and front-end including Angular JS, jquery, ajax

1. This is a startup project: LISTING, REVIEW, RATING system. It works as one common system, same as <http://www.foody.vn/>, but I don't focus on the Food, it just focuses to review the Clinics, Doctors, and rating for them

2. Responsible for back-end database and APIs used in the project. It review, listing, rating case-law, lawyers, and law-court:

- Research about Umbraco7, MVC4 and MVC5, Restful API, Parse Server (included part of NodeJS and Python), OpenVPN Server and Client, Google Authenticate

PHP Developer

Cybozu Japan Company/ Jul/2014 - Oct/2015

Working for Cybozu Japan Company (developer about groupware website, <https://cybozu.vn/product/>) in Ho Chi Minh City. I was involved in several projects:

Cybozu Garoon - an Enterprise Groupware Solution to enhance Team Collaboration. The product can be used either in the cloud or on-premise

- Garoon: (use PHP5 custom Framework, JavaScript, HTML, Solar Search Engine: use for Garoon Search indexing). My main work is to fix bugs and maintain our product. We use Git for management of source code
- Converter: use C++ and JAVA for moving customer's data at local up to. Responsible for backend database and new features

.NET Developer

FPT Telecom/ Dec/2011 - Jun/2014

Working for FPT Telecom Company (Research and Development Department) in Ho Chi Minh City. I was involved in several projects:

- IPTV: I'm a developer on Zycel Box and Comtrend Box (use ASP, Elastic Search Engine: use for FPTPlay Application).
- FPTPlay Website: A live streaming live tv and VOD project, work on many platforms (ios, android, smart TVs, android box, AppleTV) and distribute many services for other projects like user management, payment management, ingestion, etc. use Python, JavaScript, MongoDB
- APIs: written by C# WebService (.Net Framework, SQL Server 2008) JavaScript, HTML, CSS, SQL Server 2008)(Python, JavaScript, Elastic Search Query, JSON, Mongo DB)
